

Membership Levels That Grow With You!

International Imaging Technology Council Membership 2007

Associate Level: \$150 (Domestic U.S. Only)

This is a new transitional level between entry and our traditional membership level. It is designed for those that have just started in the business or are considering doing so. It is perfect for companies that are sole proprietors or have one or two employees.

The Associate Member will receive *Imaging Spectrum*, on-line news, one guest pass to a chapter meeting in any of our 12 regions and one free admission to the annual conference. Our conference is one of the very few in the imaging and technology fields that is growing in attendance every year!

While a small firm could remain at this level for more than one year, we are confident that members at this level will want to step up to the full Dealer Level and have full access to the universe of “Members Only” services which bring new meaning to the words “member benefits.”

It is also perfect for libraries, tech support departments and academic institutions.

Dealer Level: \$275 **1-15 Employees**

This is the level of the traditional Int'l ITC member firm of up to 15 employees—be it a remanufacturer, reseller, IT department, wholesaler or purchasing department.

Benefits include *Imaging Spectrum*, on-line news, unlimited attendance at meetings and the annual conference and “Members Only” privileges.

The majority of our members choose this level until they outgrow it.

Executive Level: \$550 **16-30 Employees**

This is the level for the larger, but not the largest, firms in our industry. For companies with up to 30 employees.

Benefits include *Imaging Spectrum*, on-line news, unlimited attendance at meetings and the annual conference and “Members Only” privileges.

Supporter Level: \$825 **31-49 Employees**

This level is for companies with 31-49 employees. Benefits include *Imaging Spectrum*, on-line news, unlimited attendance at meetings and the annual conference and “Members Only” privileges.

Benefactor Level: \$1,650 **50+ Employees**

This membership level reflects the interests and needs of firms employing more than 50 people in the remanufacture and sale of imaging supplies, equipment and services.

Every traditional service and support and unlimited access to meetings and the annual conference are the basic foundation stones.

We are still adding to the program of service and support for this level. It may include legal services, professional liability insurance, on-site services and certifications through the Imaging Laboratory of the Rochester Institute of Technology as well as other benefits unique to corporations of this size and importance. Some of these programs will require additional fees for individualized menus of support.

This is the level for our industry's heavy hitters.

Choose your entry membership level, knowing that you can upgrade at any time.

If you would like more information before choosing a level, please contact Olivia Stephens at olivia@i-itc.org.
